Approval Process for International Institutional Linkages

Given the recent attention on MSU's strategic international partnerships, please take note of the following reminder:

The MSU Board of Trustees has tasked the International Studies & Programs (ISP) Advisory/Consultative Committee (A/CC) with the responsibility for reviewing and

approving all international institutional linkages. The ISP A/CC is a formal part of MSU academic governance and serves as an important vehicle for faculty input into our international engagements.

Further, no memoranda of understanding, general linkage agreements, or exchange agreements are formally recognized by the university without the signature of the Dean of ISP.

ISP is here to help facilitate the linkage process. General information about initiating international linkages is available at our Web site:

<http://www.isp.msu.edu/faculty/linkage/>

Please call this information to the attention of your colleagues and urge them to avail themselves of the services of ISP in arranging linkage agreements.

Debra L. Peterson 11/1/06

This material was generated from Global Encounter-Brazil, <<http://www.isp.msu.edu/globalencounter/brazil>>, held at Michigan State University on November 7, 2006. This interactive and participatory event was designed to obtain input and to elaborate in a country-specific forum on relevant themes, opportunities, issues, and opportunities affecting MSU's current and future engagement in Brazil (and to some degree Lusophone countries).
